Dear Sir

**CONTRACT 8242  
CONSTRUCTION AND COMPLETION OF WEST COAST, PASIR PANJANG,  
LABRADOR PARK AND TELOK BLANGAH STATIONS INCLUDING HARBOURFRONT  
STATION FIT OUT WORKS AND TUNNELS  
COMMENDATION FOR WORK DONE**

I am writing to put on record my commendation for the dedication and diligence of your engineers, Mr Wang Yulong and Mr Song Baoliang, and the instrumentation team supporting the construction of the proposed Pasir Panjang Station.

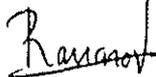

As you are aware, the construction of the Pasir Panjang Station is especially challenging given the great urgency to complete the excavation of the station box, and the critical structures on its peripheral that require very close instrumentation monitoring.

In this regard, I will like to express my appreciation to Mr Wang and Mr Song for their strong spirit of teamwork to work closely with my project team and builder, dedication to ensure that the instrumentation works keeps up with the very aggressive schedule of the construction and industriousness to not just do the instrumentation monitoring, but also to quickly process and promptly highlight instruments of concern and swiftly respond to the requests of my project team.

This would not have been achievable if not for them making personal sacrifices in going the extra mile. The hard work and long hours that they have put in is most praiseworthy. Please convey my thanks to them for their tireless commitment and invaluable support. I hope that you will duly recognise them for the exceptional performance they have exhibited to date.

Thank you.

Yours faithfully

V VENKTARAMANA  
DEPUTY DIRECTOR
