Attention: Mr Wang Yu Long
Project Manager

Dear Sir

**CONTRACT 905
DESIGN, CONSTRUCTION AND COMPLETION OF TUNNELS BETWEEN
PROMENADE STATION AND MARINA BAY FOR DOWNTOWN LINE 1**

I would like to express my thanks for the monitoring and technical support you provided during the SGP F1 2009 event.

As you are aware DTL1 C905 is located within the F1 race circuit in close proximity to the track. Your support was integral to the risk mitigation planning to ensure the success of the event.

Tritech provided accurate information promptly and communicated it effectively which provided LTA Senior Management with the reassurance that C905 would not affect the track.

I look forward to your continuous support.

Yours faithfully

**BLAISE PEARCE
PROJECT MANAGER
DOWNTOWN LINE 1**
